

# The En-Dali

An act inspired by Salvador Dali's work.

The concept "Art is for Everyone" was born three years ago after a visit by Ennadien to Dali's museum in Figueres. So began a three year long of brainstorming and developing an act that focuses not only on Art but also on its developmental processes.

While this idea was still taking shape, Ennadien was asked by the Hogeschool Windesheim Zwolle if she would be willing to let a group of students from the Industrial Design Department work with her on the project. It was eventually extended to include a second College from Mont de Marsan, France and in November 2015 Figuentheater Ennadien moved to the South of France to further develop the project with students.

Back in The Netherlands, Ennadien improved and polished the work with the help of welder Martijn Opzeeland from Zwaluwstaal.

The result speaks for itself: Beautiful long-legged moving elephants, fragments from paintings by Dali, all-in all a magical, fantastic creation.
